

WeeWee Symphony Requirements

Last modified: 02/15/2020 by Stefan George

Target Release	iOS App 2.1 Android App 2.1
Document Status	Final
Document Owner	Stefan George
Designer	Jack Zheng
Developers	Chris Salvia, Tom Li
QA	Stefan George

Background and Strategic fit

We think WeeWee Symphony feature will make restroom visits more enjoyable which will also increase App usage frequency. Japanese Toilet company ToTo has similar feature on its toilets and it's quite a hit in Japan.

Customer Research

98% of the interviewees agreed that the symphony feature will make them more likely to use or recommend our App.

Questions

A list of questions to be addressed as a result of this requirement document.

Question	Outcome
Should we be supporting Blackberry or windows phones?	It's important but not for this version.
Offline support?	Maybe offline map for travelers, needs further discussion with engineers.
Volume control in media player	Yes, already notified software team project leaders.

Not Doing

A list of things that will not be implemented in this version.

Item	Reason
Google App authentication	Out of scope and unnecessary for our App.
Upload music	Due to copyright issues, we will not be implemented in this version

Change Log

A list of changes that has been made so far.

Date	Changes
01/01/2020	Change #2 in Requirements to must
01/10/2020	Update Profile Activity in UI.
