

SUMMARY

Experienced Project and Project manager with 10 years of success in introducing large scale software and hardware projects with full oversight of design, development, testing and deployment. Defined tech requirements and schedule for project deliverables and timeline.

EDUCATION

B.S. Computer Science | Stony Brook University, Stony Brook, NY

2008 – 2014

Specialized in web development.

EXPERIENCE

Senior Product Manager | GoWeeWee 2018 – present

GoWeeWee (www.goweewee.com) is a restroom finder App for foodies out-and-about. My duty is to analyze customer needs and prioritize them based on product requirements, business requirements, and market research.

- Working in cross-functional with technical teams to drive new features and resolve operational issues.
- Persuade businesses by showcasing our finished product.
- Conduct customer surveys to garner feedback to deliver new products.

Project Manager | Terminus IoT 2015 – 2017

Terminus (www.terminusgroup.com) is an IDG backed company that aims to be the business solution of AI powered smart city. My job was to coordinate internal and external IT team to ensure project deliverables and job scheduling with oversight for product executives.

- Provided project requirements to team leaders to setup project timeline and progress
- Negotiated supplier contracts to better fit our project's specific timeline

Tech Event Translator | Mylio 2017

Worked closely with the founder of Mylio (www.mylio.com) and former CTO of Microsoft, David Vaskevitch. Provided real-time translation at events with 500+ attendees including journalists and potential investors, and was able to deliver accurate translations.
